

Dear Friends, Partners, and Followers of the Cure Mito Foundation,

We talked about this for a long time and it's finally here!

A new C-Path Task Force Aimed at Accelerating Drug Development for Mitochondrial and Metabolic Diseases is launched!

This new task force will allow our community to collaborate, share data, and accelerate development of treatments with the support of C-Path and their Rare Disease Cures Accelerator-Data and Analytics Platform (RDCA-DAP®). RDCA-DAP is an FDA-funded platform that creates the collaborative, non-competitive space to share existing patient-level data and encourages the standardization of new data collection.

We would like to thank C-Path for their commitment to our community and our incredible partners who embarked on this journey together with us: **Astellas, Champ Foundation, Cure LBSL Foundation, Hope for PDCD Foundation, Northwestern University, Mitochondria World.**

Together we are stronger!

The Cure Mito team

“The people who are crazy enough to think they can change the world are the ones who do.”

- Steve Jobs

Cure Mito Foundation is a 501(c)(3) nonprofit organization led by parents who volunteer their time to search for a cure. 100% of your donations are tax-deductible and will go directly to research dedicated to mitochondrial diseases.

Your donation matters!

For many ways to give please visit:
<https://www.curemito.org/ways-to-give>

Many volunteer opportunities are also available!

Skills and expertise currently needed: fundraising, marketing, writing (scientific writing, grant writing, blog writing). Please contact us at info@curemito.org to learn more.
