

The Cure Mito Foundation is partnering with Sanford CoRDS to create the registry. Sanford CoRDS is the largest, free international disease registry. It works to connect connect participants, advocacy groups and researchers in the field.

Participants respond to 2 surveys - General and Leigh syndrome specific survey

Results and findings are always shared with the community. Results: curemito.org/results

LEIGH SYNDROME GLOBAL PATIENT REGISTRY

Help us bring patients, families, and researchers together to gain a better understanding of Leigh syndrome

The participant owns his/her personal data and can withdraw the data from the registry at any time

For more information and to register visit:
