

# Leigh Syndrome Global Patient Registry Enrollment Instructions

Before registering, please create your Clinical Research ID (CRID) at [www.thecrid.org](http://www.thecrid.org) (this takes less than 2 minutes). You will enter your CRID in the final question of the registry survey.

Complete the CoRDS activation form. Under disease name please select “**Leigh Syndrome**”. Please use a desktop/laptop computer or tablet.

The system will generate a username for you based on your name. You will need to create a password and setup a security question. Once completed, click the **LOGIN button** to login to your CoRDS Patient Registry Profile.

Complete CoRDS Standard and Leigh syndrome surveys. It is important to enter genetic mutation on **QUESTION 4** of Leigh syndrome survey (if known).

Once you have answered all the questions, **click SUBMIT**.

Update your answers at any time by going to CoRDS and clicking “**Update Questionnaire**”.
